who have given substantial contribution to the profession. The young professionals may not be aware of their contribution. So it should be revived for us and honoured to them. In view of this, in this issue we are introducing the contribution of Dr.S.G.Mahajan - a versatile senior most personality in the field of Library and Information Science at

President of MUCLA, I am feeling proud that some of the professionals have been honored by reputed organizations for their unique contribution to the community during this period.

Friends you all are aware that since March 2020 we all are experiencing pandemic situation due to Covid. Whole World is stopped. Everything is affected. Education system is also being badly affected. We lost our professional colleagues during this period. Last three months was very distressing for us. Many young professionals are demises. This has caused irreparable damage to our profession. In such a frightful situation also library professionals are providing required library services to their stakeholders without any interruption.
